Showtime!

Showtime synopsis

Every person wants to be noticed and have their moment in the sun. Young people often undervalue themselves and miss great opportunities for success. Every obstacle we overcome creates either strength or frustration. You either turn from apathy and fear, to maximize your efforts, or you get overwhelmed by life. These days, fearful circumstances are on the rise, producing anxiety and collapse. This attitude affects high rates of dropout, drug use, obesity and driving crashes. Our message is that "now is the time to take action!" Only a renewed commitment to health, safety and personal maturity can reverse the course.

Key topics covered:

- We either *face* our fears or get *ruled* by them
- We may be looking for *validation* more than looking for maturity.
- It's time to replace apathy with action.
- It's time to stop blaming and bring people together for change in our society.
